

## THE CARESSO ADVANTAGE

Believed to be the only service in the World that pays either:

100% of any invoice value its solicitors collect; or

up to 50% of any invoice value its solicitors **fail** to collect\*

All effectively at **no cost** to you.\*

# A fresh & inclusive approach to unpaid business invoices of £1 and upwards.

Caresso Law effectively buys your undisputed B2B invoices at 100% of their face value, payable on recovery. It then instructs Caresso Law solicitors, at its own cost and risk, to recover them. At **no cost** to you.

This has the dual benefit of relieving you from the complexity, cost and risk associated with litigation, whilst also mitigating any ongoing reputational/relationship risk with your debtors.

What's in it for us?

We keep the interest, late payment fees and any costs recovered from the debtor in return for doing all the work, and taking all the risk in turning your unpaid invoices into cash.\*

A truly fresh approach to unpaid business invoices that is designed to help businesses:

- ✓ professionally litigate their debts through specialist, regulated solicitors
- ✓ avoid direct conflict/confrontation and preserve relationships with their clients
- ✓ remove own (and adverse) cost risks typical with traditional law firms & debt collectors
- ✓ realise debts, quicker at less cost, all supported through our unique guarantee.\*
